

b37

bernette 37

The bernette 37 is the first of the two bernette computer models. It offers an extensive range of helpful functions and impressive stitch quality. 50 stitches with a maximum stitch width of 7 mm are available, including decorative and stretch stitches as well as buttonholes. With the practical start/stop function, the sewing process can also be controlled without the foot control. With the needle stop up/down, the needle position can be set up/down when you stop sewing, which is a particular advantage when sewing corners. The sewing speed can be individually adjusted as needed and the sewing area is optimally illuminated thanks to the bright LED light. The b37 comes with five presser feet (soles).

b38

bernette 38

The computer bernette 38 is the top model in the series, offering everything creative sewists need. A total of 394 stitches are available, including 67 decorative stitches, 3 alphabets and 8 buttonholes as well as practical stitches such as a stretch stitch for stretchy fabrics. The maximum stitch width is 7 mm. In addition to practical functions such as the speed regulator, start/stop and the needle stop up/down, the bernette 38 has a bright LED sewing light, a needle threader, and an automatic and manual thread cutter. Also included are eight presser feet (soles) and a large extension table.

DIY: bernette dust cover

Start your first sewing project right away and sew this practical dust cover for your new bernette to give it an individual look. With this, your bernette will be beautifully and stylishly protected when you are not sewing. Let's go: Select your favorite fabric – cut – sew – be proud of your work! The instructions for this easy project are available at www.mybernette.com/cover

bernette 33

The bernette 33 is the first of the two mechanical bernette models. As a basic model, it is particularly suited for beginners with little experience. Adjustments can be made with the two knobs at the front. The stitch package contains 15 stitches with a maximum stitch width of 5 mm. A needle threader and a manual thread cutter ensure fast and uncomplicated sewing. Five different presser feet (soles) are included.

bernette 35

The bernette 35 is a mechanical model without computer control. With utility and decorative stitches, the stitch package has a total of 23 stitches, with a maximum stitch width of 5 mm, including an automatic buttonhole. All settings such as thread tension, stitch width and stitch length, as well as the selection of a stitch, can be made with the three knobs at the front. The manual needle threader and thread cutter enable efficient sewing. The bernette 35 package includes seven presser feet (soles).
